Section 1. Preliminary Statements

Applicants submit herewith patents, publications or other information of which they are aware, which they believe may be material to the examination of this application and in respect of which there may be a duty to disclose.

The filing of this information disclosure statement shall not be construed as a representation that a search has been made (37 C.F.R. § 1.97(g)), an admission that the information cited is, or is considered to be, material to patentability or that no other material information exists.

The filing of this information disclosure statement shall not be construed as an admission against interest in any manner. Notice of January 9, 1992, 1135 O.G. 13-25, at 25.

Section 2. Forms PTO/SB/08A and 08B (formerly Form PTO-1449)

☒ [X] A completed Form PTO/SB/08A and/or Form PTO/SB/08B is attached hereto.

Section 3. Statement as to Information Not Found in Patents or Publications (Information not listed on the Form PTO/SB/08A and/or Form PTO/SB/08B)

There are many instances where determining an accurate weight of a horse is desirable, if not essential for proper medication, feeding, training and health monitoring requirements. Equine scales for weighing horses are available. Equine scales are large pieces of machinery which are typically expensive and inaccessible. For example, in many situations veterinary care must be administered in the field as opposed to a clinical setting. While the veterinarian may have an equine scale at her place of business, such scale may not be accessible when the veterinarian is working in the field.
